

## Information about certificate for preferential travelling

Dear Student,

I would like to inform you that from 12 november 2017 the transport companies accept only those Temporary Student Cards which have a two-dimensional code on it, even if the previously given certification is still valid.

If you have a Student Card application in this 2017/18 academic year and your Student Card is not ready yet or you have a Temporary Student Card, please, check your certificate for preferential travelling if it has a two-dimensional code at the top left-hand corner. If your certification does not have this code, please, come to our Office or your Faculty's administrator who arranges the Student Cards and ask a new one because the previously given certification is acceptable until 12 november 2017.

You can check <u>here</u> [1] the sample of the Temporary Student Card, which is valid from 12 november 2017.

Kind regards,

Central Registrar's Office

rovat: <u>Egyéb</u> [2]
