## Information about the change of the administration of student card

Dear Student,

I would like to inform you that the new Student Card regulation was accepted 24 May 2018 at the Senate Meeting.

According to the regulation from the 2018/2019 academic year will be unitary, PTE Student Cards. This means that there won't be separated Student Cards by Faculties only by regional training centres. If you have an old type of Student Card with the Faculty's name on it, you can use it if your student status is active on that Faculty but we will put the unitary PTE sticker on it from the next academic year.

Those students whose student status ends in the academic year 2017/2018 and they continue their studies on a different Faculty they need to apply for a new Student Card. On this new student card there won't be the Faculty's name only PTE.

I would like to call your attention to the fact that because of the above mentioned changes we cannot forward your Student Card application in this semester. If you lose your Student Card, you need to register a new application in the Neptun system, transcribe the „Lost Student Card sticker” item, pay in the 3500 Forints and then you can receive a certificate for preferential travelling (Temporary Student Card). I would like to call your attention to the fact that because of the system will be changed from 1st July 2018 we are not able to give you a Temporary Student Card for a few days. During these days the Student Card arrangement will be suspended.

If you have any further questions in connection with the above mentioned information, please, contact the competent department where you have arranged the Student Card administration up to this point.

Yours faithfully,

Csukáné Jäckl Ildikó

Head of Student Finance Office

Central Registrar's Office

rovat: [Egyéb](#) [1]
